

**What can understudied languages
teach us about syntax?**

**What can understudied languages
teach us about syntax?**

*today's answer:
more than I can describe in 20 minutes...*

some random, anonymized bits of slander:

'...it's a poke in the eye for Chomsky and his stupid theory of universals, which implies that there's no need studying any language but your own because they're all basically the same anyway.'

'...most cognitive scientists, linguists included, speak only the familiar European languages...'

Uyghur Kaqchikel Passamaquoddy

FUT replaces **ACC** but not INSTR

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC:

Ngada kurri-**thur** karnjin-**kur**

I see-**FUT** wallaby-**FUT**

[ngithun thabuji-kan-**i** la-tharrba-**Ø**]

my older.brother-GEN-**ACC** spear-NONFUT-**ACC**

'I want to see the wallaby
that my older brother speared'

(Hale 1997, 44)

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC:

Ngada kurri-**thur** karnjin-**kur**

I see-**FUT** wallaby-**FUT**

[ngithun thabuji-kan-**i** la-tharrba-**Ø**]

my older.brother-GEN-**ACC** spear-NONFUT-**ACC**

'I want to see the wallaby
that my older brother speared'
(Hale 1997, 44)

→ FUT doesn't spread to relative clause,
so we see the underlying ACC there.

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC...
...just when FUT is assigned after ACC:

Kangka-wala marun [luuli-thur]!
tell-just boy.NOM dance-FUT
'Just tell the boy to dance!'

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC...
...just when FUT is assigned after ACC:

Kangka-wala marun [luuli-thur]!
tell-just boy.NOM dance-FUT
'Just tell the boy to dance!'

Ngada kangka marun-**i** [luuli-thuru-**Ø**]
I tell boy-**ACC** dance-FUT-**ACC**
'I told the boy to dance'

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC...
...just when FUT is assigned after ACC:

Kangka-wala marun [luuli-thur]!
tell-just boy.NOM dance-FUT
'Just tell the boy to dance!'

Ngada kangka marun-**i** [luuli-**thuru-Ø**] **FUT-ACC**
I tell boy-**ACC** dance-**FUT-ACC**
'I told the boy to dance'

Ngada kurri-**thur** karnjin-**kur** **ACC-FUT**
I see-**FUT** wallaby-**FUT**
'I want to see the wallaby'

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC...
...just when FUT is assigned after ACC:

Ngada kangka marun-**i** [luuli-**thuru-Ø**] **FUT-ACC**
I tell boy-**ACC** dance-**FUT-ACC**
'I told the boy to dance'

Ngada kurri-**thur** karnjin-**kur** **ACC-FUT**
I see-**FUT** wallaby-**FUT**
'I want to see the wallaby'

ACC assigned *before* **FUT** Tense concord.

Lardil concord processes

We really do want to think of FUT as 'replacing' ACC...
...just when FUT is assigned after ACC:

Ngada kangka marun-**i** [luuli-**thuru-Ø**] **FUT-ACC**
I tell boy-**ACC** dance-**FUT-ACC**
'I told the boy to dance'

Ngada kurri-**thur** karnjin-**kur** **ACC-FUT**
I see-**FUT** wallaby-**FUT**
'I want to see the wallaby'

ACC assigned *before* **FUT** Tense concord.

...so when does Tense concord take place?

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

two arguments:

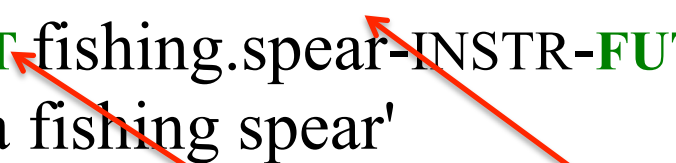

- sensitive to semantics of case
- bleeding relations with movement operations

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case

Ngada ne-**thur** yak-**ur** birnkil-uru-**r**
I hit-**FUT** fish-**FUT** fishing.spear-INSTR-**FUT**
'I will hit the fish with a fishing spear'

FUT replaces **ACC** but not INSTR

...more generally, doesn't replace *meaningful* cases.

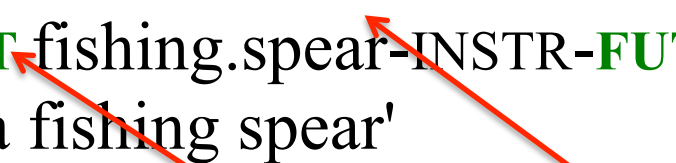

→ semantics-morphology interface=syntax.

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case

Ngada ne-**thur** yak-**ur** birnkil-uru-**r**
I hit-**FUT** fish-**FUT** fishing.spear-INSTR-**FUT**
'I will hit the fish with a fishing spear'

FUT replaces **ACC** but not INSTR

Anna pišet pis'mo ručkoi. [Russian]

Anna writes letter.**ACC** pen.INSTR

Anna **ne** pišet pis'ma ručkoi.

Anna **not** writes letter.**GEN** pen.INSTR

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

Ngawabe-**thur** bidngen-**kur**

dog bite-**FUT** woman-**FUT**

'The dog will bite the woman'

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

Ngawa be-**thur** bidngen-**kur**

dog bite-**FUT** woman-**FUT**

'The dog will bite the woman'

Bidngen be-yi-**thur**.

woman bite-PASS-**FUT**

'The woman will be bitten'

Concord bled by passive

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

Ngawa be-**thur** bidngen-**kur**

dog bite-**FUT** woman-**FUT**

'The dog will bite the woman'

Bidngen be-yi-**thur**.

woman bite-PASS-**FUT**

'The woman will be bitten'

Concord bled by passive

Ngajurdangkar ngawa be-**thur**?

who.FUT dog bite-**FUT**

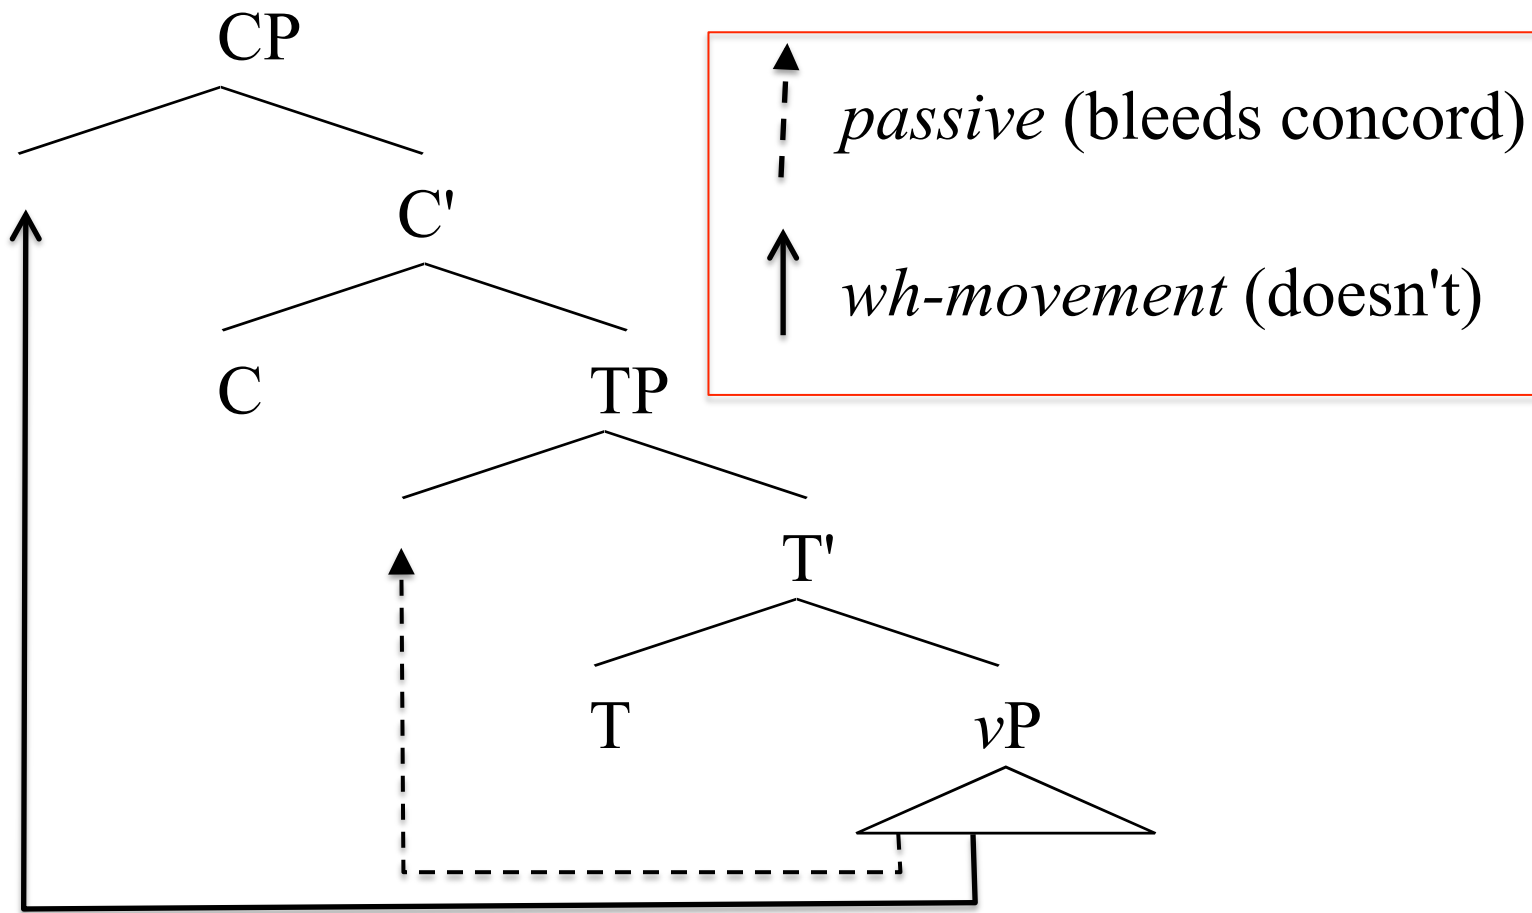

'Who will the dog bite?'

...but not by wh-mvmt.

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

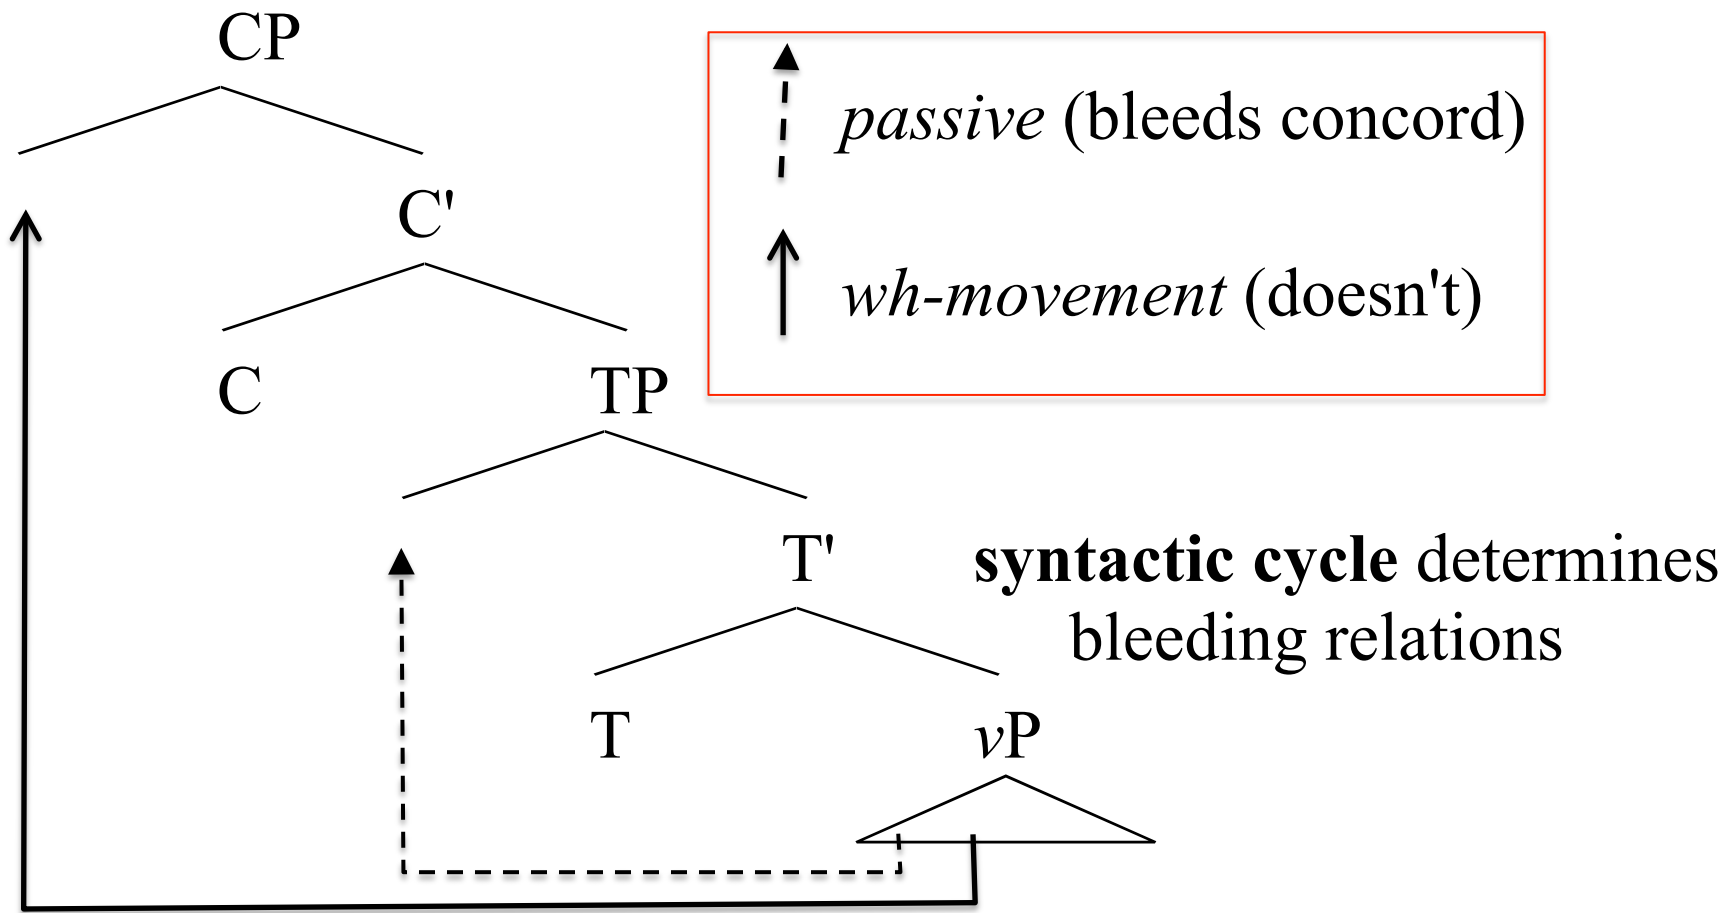

- sensitive to semantics of case
- bleeding relations with movements:

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

Bidngen be-yi-**thur**

woman bite-PASS-**FUT**

'The woman will be bitten'

Pis'ma **ne** bylo polučeno

letter.**GEN not** was received

'No letter was received' [*Russian*]

- passive bleeds Lardil Tense Concord,
but not Russian Genitive of Negation...

The timing of Lardil concord

Lardil concord happens in the narrow syntax.

- sensitive to semantics of case
- bleeding relations with movements:

Bidngen be-yi-**thur**

woman bite-PASS-**FUT**

'The woman will be bitten'

Pis'ma **ne** bylo polučeno

letter.**GEN not** was received

'No letter was received' [*Russian*]

- passive bleeds Lardil Tense Concord,
but not Russian Genitive of Negation...
...because Negation is lower than Tense.
